Mwanzo Mpya Foundation (MMF) is a Christian non-profit organization operating in Tanzania, dedicated to serving the Rangi community, a group that has historically faced significant challenges due to poverty and social prejudice. It is run by Cloud (who is Rangi himself) and Dina Roman.

Partnering with organizations like World Renewal, MMF focuses on bringing about socio-economic and spiritual transformation. One of its key projects is the Mwanzo Mpya Academy, an educational institution that provides quality schooling to local children, with a vision to equip the next generation and foster a better future for the community. They also have a health center and a well to provide for quality health services to the community.

The core of MMF is "Transformation" as they serve the unreached Rangi people, who are 98% Muslim and .5% Evangelical Christian.
