the Leadership

Mwanzo Mpya Foundation (MMF), translated "Genesis," is a Christian non-profit, which seeks to transform the spiritual, social- economic and community lives of poverty-stricken families at Kondoa District in central Tanzania through the Mwanzo Mpya Academy, medical clinic, chapel and farm (a holistic agriculture and poultry keeping program). The Rangi people are 98% Muslim, and .5% Evangelical Christian.

The Location

The Mwanzo Mpya Academy (preschool and Kindergarten) opened in January 2022. Immediate needs are for the funds to build classroom buildings, as well as child sponsorship partners who would commit to supporting these children. Each year the school hopes to add a grade, growing with the students.

With World Renewal you are sponsoring children-not a child. 90% of the money you give goes directly to the leadership to use for the children in their community. Please feel free to write and pray for a specific child at the location, knowing the support goes towards all of the children.
